## A Message from the Founder

”

*To every buyer who values clarity, consistency, and trust in **sourcing**.*

We built Kiran Enterprises with a simple belief: what is promised should match what is delivered every single time.

Our approach is grounded in transparency and structure. From direct farmer partnerships to carefully managed processing in Andhra Pradesh, every step is designed to ensure reliability. Each batch undergoes NABL-accredited testing, aligned with global standards, before it is packed and dispatched.

This catalogue reflects exactly how we work – clear processes, defined standards, and measurable outcomes.

If this aligns with what you seek in a sourcing partner, we will respond within 4 business hours – not as a target, but as a commitment.

*Piyush Ranjan*

*Founder · Kiran Enterprises · India*

**VERIFIED PARTNERSHIPS**  
Farm visits by International buyers, India, 2024-25

**OUR APPROACH**

**Buyers Who Visit Before They Buy**

Our international buyers visit our facility and farm sourcing regions before signing contracts. We welcome every pre-order inspection — third party or direct

**7+**

Export Markets

**4hr**

Response Commitment

**50kg**

Minimum Trial Order

**Trade Activity**

**International Trade**

**Fair Presence**

Actively present at agro-commodity trade fairs. Direct relationships with buyers across EU, US, Russia, Japan, Nigeria and the GCC built in person.

## ABOUT US

# *Two Locations. One Standard.*

Kiran Enterprises is a Mumbai-based exporter and agro-commodity supply partner. Our processing facility — Nature Fresh Farms — operates in Andhra Pradesh, placing us within direct reach of India's finest growing regions.

We own the processing step. Every certification we hold applies to this operation — not to a third party.
